Prompt

Create a collage of a stylish woman posing for the camera, showcasing her bold red lips and tousled hair. The setting is a moody stairwell with warm shadows, emphasizing her confident and intriguing expression. Include three separate images: one from a high angle showing her from a distance, one from a lower angle focusing on her face and lipstick, and one from an overhead perspective to capture the entire outfit and pose. Style the images with a cinematic feel using soft, diffused lighting and shallow depth of field. Capture the woman's unique expression and style, balancing masculine and feminine qualities while maintaining authenticity in representation. Use specific details such as her black tie, leather jacket, and finger-in-her-hair pose to convey a sense of confidence and intrigue.
